OWL Roadshows (Optimised Waste & Logistics) are the go-to events for public sector and private fleet businesses and help operators learn about the benefits of the latest vehicle technologies, specifically for the waste, transport and logistics industries.

Individual OWL partners are specialists in their fields and successfully supply stand-alone products. But by working in partnership with each other, and with professional organisations such as FORS, CILT and CIWM, OWL leads the way in the development of fully-integrated products and services that drive up standards of safety, compliance and sustainability.

An expanded focus for 2019 includes raising awareness of air quality issues and how these may be monitored and reduced.

Expert Endorsement

Barry Sheerman, MP is Chairman of OWL. Barry has a long career working in road safety and currently chairs the WHO's Global Global Network for Road Safety Legislators. Barry is a passionate road safety champion and advises Parliament on the latest developments from OWL and promotes necessary changes to legislation.

CILT award CPD hours for attendance at OWL events

CMS SupaTrak manage the OWL Partnership on behalf of the OWL partners.

For more information about OWL, or to register for OWL events, see www.supatrak.com/owl
